Dear Mr. Kunzler:

Thank you for the field trip visit of April 9, 1986 regarding inspection of the re-planted sites in the Iron Springs area. Would you please make a note to the File for a field inspection trip some time in May of 1989.

Attached are copies of letters we have received from the BLM and Iron County. The noted roads were on our mine reclamation plan to be reclaimed.

Would you please note said information so that, upon closure of our plan, said acreages can be credited and deleted. Thank you.

Best regards,

York F. Jones

Dear York:

You requested that the Bureau take over the Iron Springs road located in Sections 2, 3, 9, 11, 12, and 17 of T. 35 S., R. 12 W.

(BLACK BIRD OR
IRENE ROAD)

After reviewing the proposal, we have agreed to take over the road. The conditions under which we will take over the road and assume maintenance are as follows:

1. The road be brought up to BLM standards.
2. Utah International assign the Bureau of Land Management easements on the road where it crosses private or state lands.

Don Stucker has staked the road, and you have for all practical purposes, brought the road up to BLM standards.

As soon as something can be worked out on assignment of the easements, we will take full control of the road and be responsible for maintenance.

Sincerely,

Sheridan Hansen

Dear York:

After due consideration having been given to proposal made to us by Utah International, through you, under date of July 11th, 1985, we come to look with favor upon the idea of Iron County assuming maintenance of what is titled as "the haul road" in the Desert Mound area; more specifically described by you at that time. Furthermore, if it still be the desire of Utah International to rid itself of undergrounds rights to property which it recently sold to Iron County you will probably find us receptive. It is our feeling, however, that the ownership of these rights would be of little economic benefit to Iron County at the present time.

Very truly yours,
BOARD OF IRON COUNTY COMMISSIONERS
